

RUN OF SHOW & SETUP · 21 SEPTEMBER 2026, CLUB CONTROL

INTRO TO SYNTHESIS

The workshop's day sheet: setup from the kit's arrival to doors, the run of show on real clock time, plan B and teardown. Fill in the [...] fields before event day. Sintezaur × Zeedo · powered by Sequential.

PART 1

SETUP · T-3h → T-0

WHEN	WHAT	DETAILS	WHO
T-3:00	Kit arrival + count	From the Sequential kit: 11 Fourms, 11 X-stands, 20 ADAM H200 headphones, 10 splitters, 3 power strips, 10 extension cords (8 ft / 15 ft). Plus Zeedo's synth and Iulian's synth = 13 Fourms. Every box gets checked on opening; packaging stays intact for repack.	[to fill in]
T-2:45	Layout	12 stations (2 rows × 6 or 3 × 4), all with a clear view of the screen; the presenter's station up front, off to the side, facing both the room and the screen; a walking aisle between the tables (the presenter passes through at every exercise). 2 participants per station.	[to fill in]
T-2:30	Stands + synths	The stand: pin in the second hole, velcro facing up; the synth seated on the velcro; power supply strapped to the stand, cable running under the table. Nothing dangles at knee height.	[to fill in]
T-2:00	Power	8 ft extensions in the middle / 15 ft at the ends; one power strip per row , the second daisy-chained into the first; all synths OFF before the strips go live, then ON, one by one .	[to fill in]
T-1:45	Headphones	One splitter + 2 headphones per station. Needed: 24 headphones + 12 splitters → 20 + 10 from the kit → +4 headphones and +2 splitters from Zeedo , tagged "return to Zeedo". Test: sound in both headphones at every station.	[to fill in]
T-1:30	Audio + video	Presenter's synth (main out, mono 1/4") → PA mixer + microphone, tested from the back of the room; 16:9 screen + laptop + HDMI + clicker; overhead camera framed on the panel (optional). The RO deck open on the title slide.	[to fill in]
T-1:00	On every unit	main at 12 o'clock; Basic Program on all of them (hold transpose down + program) or the chosen preset; sound in both headphones. See the "Per-unit checks" box.	[to fill in]
T-0:30	Last things	Student handbooks (EN + RO) by the exit, not on the tables; water; photo/video of the setup; the presenter script + cheat sheet at your station; the DEMO presets checked (F118 Bottle Service, F117 Glass Echo etc.).	[to fill in]
T-0:15	Doors	Participants sit two to a station; headphones stay down until the first exercise.	[to fill in]

NUMBERS

PER-UNIT CHECKS

- 24 seats · 12 stations (2 per synth) · 13 Fourms (11 kit + 1 Zeedo + 1 Iulian).

- 90 minutes of course (8 modules + wrap-up), then free play. Q&A 5 minutes, included.

- Headphones needed: 24 + 12 splitters. From the kit: 20 + 10. From Zeedo: +4 headphones, +2 splitters.

- Keybed firmware: keymech OS $\geq$ 1.0.0.2 (older versions send maximum aftertouch on the bottom octave).

- Global: Aftertouch = Poly · Clock Mode = Out or Off (on In the arp waits for external clock) · Preset Mode = On · Velocity Curve = Medium.

- “Tune Voices” after 15 minutes of warm-up; **main** at 12 o'clock; Basic Program on all.

RUN OF SHOW · real time = [START TIME] + offset

TIME	CLOCK	SEGMENT	CONTENT	OWNER
+0:00	0:00–0:05	00 · WELCOME & SETUP	00:01 Title · 00:02 Today · 00:03 The “distance” demo · 00:04 First contact (Basic Program). Headphones down.	[to fill in]
+0:05	0:05–0:12	01 · SIGNAL FLOW	What's in a sound · the voice path · where on Fourm · the mixer · exercise 0:10–0:12 · terms.	[to fill in]
+0:12	0:12–0:23	02 · OSCILLATORS	The waveshapes · octaves & tuning · pulse width & PWM · the sub trick · noise · exercise 0:19–0:22 · terms.	[to fill in]
+0:23	0:23–0:33	03 · FILTER	Low-pass · resonance · key track & env amount · exercise 0:29–0:32 · terms.	[to fill in]
+0:33	0:33–0:44	04 · ENVELOPES	ADSR · two envelopes · bass vs pad · exercise 0:38–0:43 (bass + pad, in pairs) · terms.	[to fill in]
+0:44	0:44–0:53	05 · LFO & MODULATION	The LFO · the Modulation section (route → destination → amount, red/blue) · exercise 0:49–0:52 · terms.	[to fill in]
+0:53	0:53–1:02	06 · VOICES & UNISON	Polyphony · unison · chord memory (demo only) · feedback · exercise 0:59–1:01 · terms.	[to fill in]
+1:02	1:02–1:10	07 · EXPRESSION	Velocity · poly aftertouch · pressure routing · glide · exercise 1:07–1:09 · terms.	[to fill in]
+1:10	1:10–1:17	08 · ARPEGGIATOR & SEQUENCER	Hold a chord · clock & sync · note & mod seq · exercise 1:14–1:16 · terms.	[to fill in]
+1:17	1:17–1:26	09 · WRAP-UP	The road, again · challenge (bass from Basic Program) · Q&A (5 min) · thanks (Zeedo, Sequential) + handbooks at the exit.	[to fill in]
+1:26	1:26–1:30	FREE PLAY	The synths stay with the participants; the “one sound, sixty seconds” suggestion; group photo.	[to fill in]
+1:30	1:30–2:00	TEARDOWN	Repack (every Fourm in its own box, power supply alongside) · headphones and splitters counted (20 + 10 from the kit; Zeedo's separately) · stands, strips, extensions · return checklist signed · 10 minutes of notes: what worked, what ran long, what questions came up.	[to fill in]

PLAN B

- **No projector:** teach from the panel and from the student handbook; overhead camera on a TV, if one exists.
- **No PA:** headphones down, you play your synth through an amp or a local speaker; demos get shortened.

CONTACTS

- Zeedo (retail / instruments): [to fill in]
- Club Control (room, PA, screen): [to fill in]
- Sequential (Taiho): [to fill in]
- Photo / video: [to fill in]
- Kit return — to whom, when, where: [to fill in]

· **A faulty / frozen synth:** Basic Program (hold **transpose down + program**); then **main**, mixer, **cutoff**, the amounts at 12 o'clock, **key track**; last resort: swap that station with yours.

· **More than 5 min behind:** cut in the order 08:04 → long demo in 05 → 06:04 → 03:04 demo → 07:05 demo → exercises at 90 s, no swap.
